

Teach Art become an IRDS Art Docent

100% volunteer-run, this program brings art to the classrooms through hands-on lessons. The program includes a variety of different artists from different cultures and time periods; each lesson brings the children closer to the artist. The children are encouraged to replicate the work of the artist they view through different mediums – pastels, watercolor, and pencil to name a few. This program culminates with an Art Show in May.

NO PRIOR EXPERIENCE NECESSARY.

All materials are provided.

This is a perfect opportunity for parents and grandparents to volunteer for your children and be in the classroom!
